

Appl. No. 09/845,036  
Amdt. fax-filed on January 12, 2005  
Amendment under 37 CFR 1.116  
Expedited Procedure - Examining Group 1644

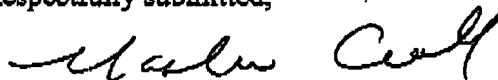

PATENT

REMARKS/ARGUMENTS

Claims 1-20, 32, 46, and 75 were previously canceled. Claims 21-31, 33-45, 47-74, and 76-80 are allowed. Claims 63-65 are currently amended to recite units of  $\mu\text{g}/\text{ml}$  instead of  $\text{g}/\text{ml}$ . This amendment adds no new matter. Claims 63-65 were added by the Amendment dated December 17, 2002, and included the correct units of  $\mu\text{g}/\text{ml}$ . However due to an inadvertent typographical omission the " $\mu$ " character was subsequently dropped from the claims. This amendment corrects that omission. Specification support for the correct units can be found throughout the Specification and at least at page 13, lines 23-28.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,

---
